Marcus Zelenskyy

Junior Java

As a passionate Java programmer, I am dedicated to exploring the endless possibilities and exciting challenges that the programming world offers. I am currently studying at UOC and Bootcamp Java SpringBoot, mastering the latest technologies and frameworks to stay ahead of the curve. My experience in Java programming has allowed me to develop efficient and robust applications that meet the highest standards of quality and performance.

I am driven by the constant evolution of technology, always seeking out new ideas and approaches to push the boundaries of programming and achieve exceptional results. As a detail-oriented and self-motivated individual, I am committed to delivering excellence and collaborating with others to achieve shared goals.

Education

- **Universidad Abierta de Cataluña - UOC (Barcelona)**
  Desarrollo de Aplicaciones Web | Actual

- **Centro de estudios SkillBox**
  Java Developer | Actual

- Centro de estudios Udemy
  Js, Java, CSS, HTML, DDBB | Actual

- **National University of International Relations (Ukraine)**
  Master of Political Science| 2004 - 2009

Expertise

- Java, Hibernate, SpringBoot, C

- HTML, CSS

- Git, GitHub

- MySQL

Language

English
Spanish
Catalan
Ucranian
Russian

Experience

Freelance

Java

During my time at UOC and Bootcamp, I participated in several collaborative projects, collaborating with other students to design and develop innovative solutions for real-world problems. I also had the opportunity to work on small projects for small businesses, providing custom software solutions to improve their operations and streamline their processes. In addition, I worked on a specific case for Nuvola (you may consult more repo at my GitHub account).

Through these experiences, I gained valuable hands-on experience, honed my programming skills, and learned the importance of effective collaboration and problem-solving in achieving success in software development.

If you would like to see some of my work, I invite you to visit my GitHub page where you can find examples of my coding projects and contributions to open-source software

Top Doctors INC (Barcelona)

Technician (Spain)

- Wordpres
- HTML5, CSS3
- Photoshop
- Infrastructure/ helpdesk

Eurodivisas S.A.

Project Manager (Brasil, Russia, Turkey)

- Budget Control & Business trips.
- Branch Layout. Airports authorities & HQ communications.
- Achievement of building approvals.
- Work with projects according to company's unfied design.
